PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors; D. I. Arnon, Berkeley; J. Baeyens, Louvain; F. C. Gerretsen, Groningen; G. W. Harmsen, Groningen; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen.

Secretary:
G. H. Arnold

Assistant Secretary:
J. K. Smit

c/o Institute for Soil Fertility
Groningen, Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; L. Gisiger, Liebefeld-Berne; F. G. Gregory, London; A. J. de Groot, Groningen; W. R.C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; V. J. Koningsberger, Utrecht; J. Lavollay, Paris; L. Leyton, Oxford; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, Pasadena; L. K. Wiersum, Groningen.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Groningen

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

BANGE, G. G. J., Upward transport of potassium in maize seedlings 280

BARKWORTH, H., and BATESON, MARY, The population level of presumptive nitrosomonas and nitrobacter in some English soils 220

CARLISLE, A., *Short communication.* Carbohydrates in the precipitation beneath a sessile oak *Quercus petraea* (Mattushka) Liebl. canopy 399

EMMERT, FRED. H., Forces involved in retention and movement of non-metabolic strontium in *Phaseolus vulgaris* . . 136

FOX, ROBERT L., and KACAR, BURHAN, Mobilization of non-exchangeable potassium and sodium in a calcareous soil during plant growth 33

GADGIL, P. D., Distribution of fungi on living roots of certain *Gramineae* and the effect of root decomposition on soil structure 239

GUPTA, K. G., and SEN, A., The relationship between glucose consumption by *Rhizobium* spp. from some common cultivated legumes and their efficiencies. 229

HAIDER, K., FREDERICK, L. R., and FLAIG, W., Reactions between amino acid compounds and phenols during oxidation 49

HALLSWORTH, E. G., YATES, M. G., CANSFIELD, P. E., and SAUL, J. T., Studies in the nutrition of the forage legumes. V. The effect of variations in copper supply on the concentrations of copper, manganese and iron present in *T. subterraneum* grown in sand culture. 323

HANDLEY, RAYMOND, METMALLY, ABDEL, and OVERSTREET, ROY, Divalent cations and the permeability to Na of the root meristem of *Zea Mays* 200

KICK, H., SAUERBECK, D., and FÜHR, F., Die Aufnahme von Kohlendioxid durch die Pflanzenwurzel. II. Untersuchungen zur Verteilung innerhalb der Pflanze 99

MARTIN, J. P., and PAGE, A. L., Influence of high and low exchangeable Mg and Ca percentages at different degrees of base saturation on growth and chemical composition of citrus plants. 65

NICHOLS, R., Studies on the major-element deficiencies of the pigeon pea (*Cajanus cajan*) in sand culture. II. The effects of major element deficiencies on nodulation, growth and mineral composition 112

NORRIS, D. O., Acid production by *Rhizobium*. A unifying concept. 143

VAN DER PAAUW, F., Factors controlling the efficiency of rock phosphates for potatoes and rye on humic sandy soils 81

PÁLFI, G., The effect of sodium salts on the nitrogen, phosphorus, potassium, sodium and amino acid content of rice shoots 127

PASSIOURA, J. B., Letter to the editors 317

PATASSY, FRANK Z., *Short communication*. Lithium determination in waters and plant materials by atomic absorption spectrophotometry. 395

PAUL, E. A., and TU, C. M., Alteration of microbial activities, mineral nitrogen and free amino acid constituents of soils by physical treatment 207

PAULI, F. W., The biological assessment of soil fertility. . . 337

VAN RHEE, J. A., Earthworm activity and plant growth in artificial cultures. 45

RICHARDS, B. N., Mycorrhiza development of loblolly pine seedlings in relation to soil reaction and the supply of nitrate 187

RUINEN, JAKOBA, The phyllosphere. III. Nitrogen fixation in the phyllosphere 375

SCHUURMAN, J. J., Influence of soil density on root development and growth of oats 352

SCHWABE, W. W. Dr. F. J., RICHARDS, 1901–1965 319

SMITH, A. N., *Short communication.* The supply of soluble phosphorus to the wheat plant from inorganic soil phophorus 314

TAYLOR, G. S., and PARKINSON, DENNIS, Studies on fungi in the root region. IV. Fungi associated with the roots of *Phaseolus vulgaris* L. 1

VANČURA, V., and HOVADÍK, A., Root exudates of plants. II. Composition of root exudates of some vegetables 21

WEBLEY, D. M., and (the late) DUFF, R. B., The incidence, in soils and other habitats of micro-organisms producing 2-ketogluconic acid 307

WILLIAMS, S. T., PARKINSON, D., and BURGES, N. A., An examination of the soil washing technique by its application to several soils 167

WILSON, S. B., and HALLSWORTH, E. G., Studies on the nutrition of the forage legumes. IV. The effect of cobalt on the growth of nodulated and non-nodulated *Trifolium subterraneum* L. . 260
